Renewed, "green" and on the scene!

Eco-friendly vintage Solid Heart Pine mantel shelves reclaimed from the structures that helped build America. Made in the U.S.A.

Rich with character, these mantels proudly display their history with cracks, notches and nail holes. No two pieces will look exactly alike, each is an individual masterpiece. The wood is hard and durable, and no matter what your décor, this classic treasure will complete your room with warmth and beauty. Available in two lengths: 60" and 72" and two finishes: Driftwood – a natural weathered gray, and Whiskey – a warm toasted honey brown.

No. 870 Driftwood Finish 60" Length

No. 870 Whiskey Finish 60" Length

Solid Heart Pine Reclaimed Wood Shelves No. 870

About Reclaimed Wood

Reclaimed from Antique Barn Wood. Each piece is a meticulous labor of love. Handmade from vintage wood preserving the natural splits, knots, nail holes, etc., from the original wood surface.

- The age and tannins in the wood will accept stain differently and stain variations are common and acceptable. Size variations are also common.
- No two pieces will look exactly alike—individual masterpieces.
- Because each piece is unique, measurements may vary up to 3/4 inches.
- Pictures are representative. Finish and physical appearance may vary.
- Some finishes may be lighter or darker than the picture.
- Each piece is handmade retaining natural splits, knots, nail holes, etc. from the original wood surface.

**As each piece is different, appearance, measurements and weight may vary from published information.*

Weight:	96 lbs.

Order by color and length.
Made to order. Minimum 2 week leadtime.

*Actual finish colors and
distressing may vary from photos.
Finish samples available.*

Because each piece is individually hand crafted and poured, overall measurements may vary up to 1/2" and we recommend that the mantel shelf and corbels be installed first, then install the stone around the shelf. This insures a secure fit for the mantel and brackets. Lead time 2 weeks.

Installation is done following a 3 step plan. It is recommended that 2 people be available for installation.

Note: We suggest consulting a local expert if you are unfamiliar with masonry assembly and installation.

Masonry installation: Install corbels onto the masonry by attaching the brackets with 3/8" x 4" lag screws using suitable anchors. You will need 2 per corbel. For even weight distribution of the shelf, mount corbels approximately 12" in from each end on the 5 ft. shelf and 18" on the 6ft. shelf. After corbels are installed apply mortar or construction adhesive, per manufacturer's product instructions, to the top of each corbel and to the back of the shelf. Set mantel on top of corbels, arrange so that it is centered on the corbels and press against the wall. If necessary, clean with a slightly dampened cloth. Commercial cleaning products are not recommended.

If this is new construction, the stone will go over the brackets keeping them out of sight.

If this is a retrofit, use any stone parts that were chipped out in order for the shelf to fit to hide the brackets.

If installing to drywall, it will be necessary to cut the drywall away and install additional blocking between the studs to support the weight of the corbels and shelf. Hide the corbel brackets when reinstalling the drywall or hide with whatever material you may be using over the drywall (i.e. stone veneer, tile, etc.)

Because each piece is individually hand crafted and poured, overall measurements may vary up to 1/2" and we recommend that the mantel shelf and corbels be installed first, then install the stone around the shelf. This insures a secure fit for the mantel and brackets. If there are any gaps, they should be filled with mortar joint.

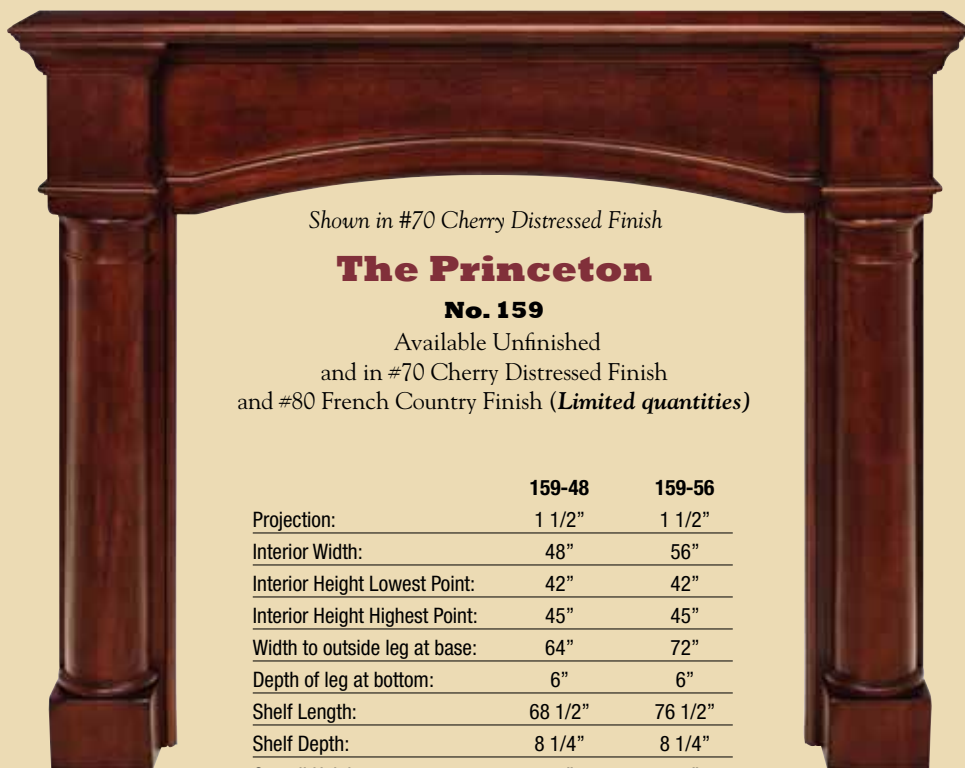

Please consult a professional if necessary.

3 - Step Installation:

1. Attach corbels to masonry or blocking using 4 - 3/8 x 4" lag screws

It's the first piece of furniture in any home...
